Concluding Remarks:
Efficient and Robust KG Construction

Github: https://github.com/NLP-Tutorials/AACL-IJCNLP2022-KGC-Tutorial

Questions: zhangningyu@zju.edu.cn, tgui@fudan.edu.cn, nanguo2021@bupt.edu.cn

Efficient and Robust Kknowledge Graph Construction

Introduction and Application

- Named Entity Recognition, Relation Extraction, KG Construction

Efficient KG Construction

- Data Efficiently, Model Efficiency, Inference Efficiency

Robust KG Construction

- Robustness problem Discovery, Data Correction, Robust Model learning

GraphGen4Code

A Toolkit for Generating Code Knowledge Graphs

Efficient and Robust Kknowledge Graph Construction

Introduction and Application

- Named Entity Recognition, Relation Extraction, KG Construction

Efficient KG Construction

- Data Efficiently, Model Efficiency, Inference Efficiency

Robust KG Construction

- Robustness problem Discovery, Data Correction, Robust Model learning

DeepKE

Knowledge Extraction Tool

Efficient and Robust Kknowledge Graph Construction

Introduction and Application

- Named Entity Recognition, Relation Extraction, KG Construction

Efficient KG Construction

- Data Efficiently, Model Efficiency, Inference Efficiency

Robust KG Construction

- Robustness problem Discovery, Data Correction, Robust Model learning
